Paper Mode:	Heavy to Label 1
ItemNo.:	JPCLHS2S
Print mode:	Mirror Image
Temperature:	300F
Time:	60 seconds
Peel:	Cool
Pressure:	Heavy

All technical information and recommendations are based on tests we have conducted. Users should conduct their own tests before proceeding

NOTES

Accessories Required

Computer, Color Laser Printer, Heat Press, Foam Heat Pad, Felt pad (optional).

Printable side

The printable side (white glossy coated side) It is also the adhesive side.

Pressure Settings

Heavy Pressure is required for the image to completely adhere to the hard substrate.

Image Design

This paper works best with a full bleed image. When designing your image, ensure that you bleed your image at least 0.5 inches more than the substrate. If you are not bleeding the image, it is recommended you trim the image to eliminate the background.

Peeling

Depending on the substrate you are imaging, the peel could be cool or hot. Please read instructions for substrate carefully. (see PDF instructions)

Care Instructions

After imaging, do not put in direct sunlight. Store at room temperature.

Storage

CL Hard Surface II has an indefinite shelf life when stored at room temperature. Keep away from direct heat, sunlight and humidity.
