SUBLIMATION MASKS AND MORE NO-TOUCH ITEMS

Our sublimation masks meet California Prop 65, and EU REACH compliance.

VERSATILE SUBLIMATION FACE MASK WITH FILTER

According to our test, small-sized masks are suitable for kids and women, and the large-sized ones can sit well on men's faces, but we kindly suggest you choose the right size for you own. We highly recommend the masks with elastic ear loops which can be adjusted to fit your face better.

⚠ Important Notes

1. Kindly note that our sublimation face mask are non-medical masks which can't protect against Covid-19.
2. The masks are reusable and machine washable. Please wash the masks and wear them after they dry. To keep the masks clean, we suggest you wash them after going out for more than 3 hours. If you wear the masks at home, please wash them every 24 hours.
3. We suggest not to share one mask with others.
4. Apart from wearing a mask, we suggest you take all reasonable precautions to protect yourself, such as keeping your hands clean, not touching your face outside, and 1.5m social distance.

How to Wear BestSub Face Masks?

1. Before wearing the mask, please make sure your hands and face are clean. Stretch the mask with two hands on the ear loops and raise it to front of your face.
2. Put one ear loop around your ear first, and stretch the other loop towards the other ear.
3. Then wear the other loop.
4. Make sure the mask has fully covered your nose and mouth, and adjust it to make it fit your face and improve the tightness.

1. Put the filter into the pocket of mask.
2. Before wearing the mask, please make sure your hands and face are clean. Stretch the mask with two hands on the ear loops and raise it to front of your face.
3. Put both the two earloops around your ears, and adjust the loops to best fit your ears.
4. Make sure the mask has fully covered your nose and mouth, and adjust it to make it fit your face and improve the tightness.

How to Clean Fabric Face Masks?

1

All BestSub fabric face masks are washable. You can wash them in 60°C water using washing machine and dry them in high heat. No need to worry they will shrink or fade;

2

If you want to wash the masks by hands, use soap and scrub them for at least 20 seconds in warm water and then dry them immediately with dryer;

3

To kill any remaining germs, you can spray some 70% alcohol to sanitize the masks or iron them in low temperature. Ironing can also make the masks flat;

4

Surgical masks, N95 masks and other non-woven masks are disposable and not washable. Please throw them away after using.

5

Clean the masks depending on the frequency of use. We suggest you wash them after going out for more than 3 hours. If you wear the masks at home, please wash them every 24 hours to keep them clean;

6

Most filters, including our PM 2.5 filters that can be added into the masks are intended for single use and not washable, so it's best to replace them after each use. Please DO remove them before washing our non-medical printable face masks.

Non-contact Antivirus Keychain for Your Health & Safety

How can a little keychain prevent virus? The answer is that it can help avoid direct touches on objects in public facilities to keep your hands clean and then stop the spread. It can be connected to our metal reel clip so you can touch things by using the easily-stretched pendant instead of your hands, such as elevator buttons, ATM panel, door handle outside, which might carry bacteria and viruses on the surfaces. You can also attach the pendant on your own keyring.
